

# INTRODUCTION

Mossman Trunks is a wholly owned subsidiary company of 5 Star Cases Limited, a leading manufacturer of specialist cases to a wide variety of applications and industries. For over twenty one years, 5 Star Cases has gained considerable experience in this field. This has been achieved in various ways. Firstly, its commitment to training its employees. All our staff, from Production, Administration, Technical or Sales, take pride in what they do. Secondly, continued investment in machinery, IT systems and software, training equipment and property facilities.

Since its formation, 5 Star has continued to grow into one of Europe's leading manufacturer of cases and associated products. The company is based at Wisbech, in the heart of the Cambridgeshire Fens. Having outgrown its previous site, the company moved into its current premises in July 2000. The site now occupies over 27,500 sq ft of production, administration and storage facilities. We have some of the latest production equipment in the factory, including two CNC machining centres, CNC aluminium cutting saws, hot-melt adhesive systems and foam fabrication machinery. Administration is supported by up to date I.T. systems. A lot of these are designed and configured in-house by 5 Star's technical department, which increases the 'up time' of mission critical systems.

Over recent months, the technical department has co-designed a software system that integrates Order Processing, Product Database and Production Scheduling. Again, enhancing the company's skills and abilities in a wide variety of areas.

5 Star has manufactured cases for many applications and industries. However, its core business is the entertainment sector which amongst others includes Audio Visual, Sound and Lighting, Theatre, Exhibition and Events. With over twenty one years experience, 5 Star Cases has the ability to tackle almost any project, large or small, complex or simple. We pride ourselves on prompt and efficient service, with extremely quick delivery times. Our Sales Team can react to urgent requirements and can work closely with the client to discuss specific needs. Our Production facilities are also well equipped to cope with tight deadlines.

In 2001, 5 Star Cases further strengthened its position by acquiring Mossman Trunks from Custom Cases Limited. This added further brands and products to 5 Star's already extensive range of cases and foam inserts. Further information of these products and more besides can be found in our general brochure which is available by contacting the sales team.

All these facilities and departments are available to view by appointment and we welcome potential customers to visit our premises, to see how we operate.

Hard wearing PVC covered with tough aluminium edging.
