

PRESS RELEASE

5 Star supplies Stage Electrics...

UK - Flightcase manufacturer 5 Star has supplied a large quantity of lighting trunks to Bristol based rental company Stage Electrics.

The cases are all built to 5 Star's Super Tour specification, and Stage Electrics are using this particular batch of cases to accommodate different types of Vari*Lite fixtures. Fourteen are housing twin Vari*Lite 2000s, nine for twin V*L3000s and five for twin V*L 3500 luminaries.

Each case holds two fixtures, complete with clamps, allowing for quick and easy handling during get-ins and outs. Also supplied as part of the order were 25 trunks to house the ETC Revolution fixture.

The cases were delivered to Stage Electrics' London office and immediately went to work helping facilitate the get-out of Mary Poppins from London's West End. They are now out on tours of Equus and Zorro both of which loaded out of the company's Bristol HQ.

Pictured is 5 Star's Andy Harford with just some of the trunks destined for Stage Electrics.
